

School Fluoride Program - Weekly Rinse

Parent Permission Form (No Kindergarten)

5 things every parent should know about fluoride:

1. Fluoride can prevent tooth decay (*cavities*).
2. The American Dental Association and the American Academy of Pediatrics recommend school fluoride programs.
3. Your child can get **free** fluoride at school through Oregon's state Oral Health Program.
4. The fluoride rinse can be added to your child's routine. It does **not** matter if your child has other sources of fluoride.
5. Always follow the advice of your dentist. For more information, please contact us at 971-673-0235 or visit our website at <http://healthoregon.org/schooloralhealth>.

Did you know?

Tooth decay (*cavities*) is almost 100% preventable. Keep your child smiling by brushing and flossing every day!

School Fluoride Rinse Permission Form
